

# Dental Benefits

When you're at the end of your rope  
deploring your half-empty cup,  
a dental chair offers you hope,  
for there, ev'rything's looking up!

You may think they're gathering wool  
with new-fangled xrays and drills,  
but whatever dentists don't pull,  
a good one expensively fills.

While we think we're making them rich,  
they've office expenses to pay;  
so, give them a laugh, for a switch:  
they're down in the mouth ev'ry day!
