

## HELL'S HARVEST

The harvest of hellish hereafter  
is sure as the sowing of sin.  
Its screams won't be louder than laughter  
resounding from demons within.

The skeptics who fled jurisdiction  
of conscience, commandment, and King  
will find our "old myths" were nonfiction,  
while theirs had a poisonous sting.

Since tricks of a tempter were treasured  
midst warnings of prophets grown hoarse,  
regrets will unravel unmeasured,  
unchecked by eternal remorse.

While children of wisdom will flourish,  
rewarded for heavenly goals,  
dark devilish armies will nourish  
their lust on hell's harvest of souls.
