

# TOILET ECO-LOGIC

In time of drought,  
don't be a flout!  
If only gas,  
just let it pass—  
resist the rush  
of habit's flush.

And use these tools  
from older rules:  
“When it's yellow,  
let it mellow;  
but if it's brown,  
then flush it down.”

Before you sneer  
these lessons here—  
or laugh and blast  
a wiser past—  
when weather's dry,  
give them a try!
