

WEALTH

The richest humans on the earth
Have found the wealth of wisdom's worth
By fearing God and fleeing sin,
Which bring prosperity within.

The richest hearts, and happiest,
Have made their pilgrimages blest
By lifting up the Lord in praise
With gratitude throughout their days.

The richest homes are up above
With transferred treasure-stores of love
From souls who sought to serve and share
What help they could, in self-less care.
